

NOVAtime Phone-In System

TIME TRACKING FOR MOBILE WORKFORCE

**USING YOUR EXISTING TELECOMMUNICATION INFRASTRUCTURE
TO MANAGE AND TRACK YOUR WORKFORCE
ANYTIME, ANYWHERE!**

Where are you going to work today?

Ideal workforce management solution for construction business, housekeeping services, travel nursing care, etc.

- ✦ Do you have employees who work from locations to locations?
- ✦ Do you need an automatic job transfer as your employees work from one location to another?
- ✦ Do you have a need for labor distribution or client billing for your mobile workforce?

Labor management starts here with NOVAtime Phone-In System...

- ✦ Using caller ID / telephone number, you can:
 - Correctly identify your employees arrived at their assigned workplace.
 - Automatically transfer from one job to another as your employees call in to work.
 - Accurately distribute their work hours to support your client billing.
- ✦ Allows your employees to check their work schedules: Schedules are available immediately for your employees to call in to check.
- ✦ Plus many more...

Delivers efficient workforce management anytime, anywhere with NOVAtime Phone-In System...

“I was completely amazed with NOVAtime’s phone-in solution and pleasantly surprised with many great easy-to-use features!”

Ideal for companies with employees who telecommute, or work at many locations / remote job sites!

NOVAtime Phone-In

System Requirements:

- * Telephone server with dialogic card(s) - Supports up to 32 phone lines per server.
- * Use the same Microsoft® SQL database for NOVAtime 3000 Enterprise Edition.

Exclusively packed with many incredible features:

✦ Great caller ID related features:

- You can assign employees to punch from a designated list of telephone numbers for the entire company or based on their home department.
- You can setup automatic job transfers when your employees punch in from a specific phone number.

✦ Allows you to lock out employees from punching outside of their assigned schedules: Labor cost control starts here...

✦ Allows your employees to check their work schedules: Real time schedule update by your supervisors, real time schedule read back to your employees!

✦ Allows your supervisors to leave voice mails for their employees: Efficient communication.

✦ No data collection, no polling: Immediate access and availability of your employees’ time punches from your NOVAtime system.
